LUNAR OUTPOST™

Designed by Randy Glover and John Marvin

The Lunar Outpost is under attack. Without this final garrison, Earth lies open to their assault! Racing across the moon you search for the Zytron Strike Force. When you find them, switch to the battlefield screen for 3-dimensional combat! Blast the Zytron ships while avoiding their nuclear barrage. If you're hit or are low on fuel, do you have time to service your vehicle? Can you afford to stand and fight or is it better to sacrifice this territory to protect another? Hurry, the future of the Luor Outpost is in your hands!

Type of program : Action game
No. of players : 1
