An indoor soccer field is a crowded, 1500 square yard arena surrounded by unforgiving plexi-glass — except when there are 12 soccer players darting about like human pinballs, trying to force the ball through impenetrable defenses and past goalkeepers with incredible reflexes guarding a box only 12 feet wide. You can be one of those players, too, with **Keith Van Eron's Pro Soccer!**

- Control the power and direction of all shots on goal!
- Realistic, and unpredictable rebounds off the boards!
- Manual includes a history of the MISL!

Keith Van Eron, goalkeeper for the outdoor soccer powerhouse Dallas Tornado, and a living MISL legend, played every game of his career on the edge. **Keith Van Eron's Pro Soccer** gives you the same chance. Featuring a unique, three-dimensional view of the action and players that not only kick the ball, but dive, slide and jump in the air after it, **Keith Van Eron's Pro Soccer** will provide endless hours of fun, whether you're playing a solitary game, or challenging a group of friends to a World Cup Tournament or grueling MISL season-long schedule. And when your weary hands need a rest after this much excitement, you can take a few moments to read over the soccer playing tips (complete with photographs) provided in the manual. The options are infinite. The action awaits.
