Mr. Do!'TM S Castle

COMMODORE 64TM / ATARI[®] COMPUTERS DISK

Under License from Universal USA, Inc.

Poor Mr. Do! . . .

Life is no bowl of cherries for this little clown. Peace and quiet was all he wanted the day he ran away from the crazy pace of the circus. Ever since then, he hasn't stopped running. Wherever he goes, there are unicorns nipping at his heels. So now, instead of juggling balls, he's swinging a hammer. Who knows? Maybe someday, when his castle's free of all these nasty critters, he'll get some rest. But for now, it's Do! or Doom! for Mr. Do!

Atari Home Computer Game Graphics

Mr. Do!, that king of arcade clowns, is in a bit of a bind—again! This time, a pack of pesky unicorns is trampling the bricked hallways of his castle.

Help Mr. Do! rid his dwelling of these crafty, quick-changing (and deadly!) creatures with the skillful swing of a hammer. Sometimes a quick clobber to the head will do it. Or maybe a well-chosen brick knocked out from above. If you can't stop these critters, then break a hole in the floor to slow 'em down. It's up to you to know when to fight—or when to flee! Tension mounts as you hurry Mr. Do! through the castle's maze, grabbing keys along the way. Only when Mr. Do! has collected all the keys can he unlock the castle door, and open up an extra chance to beat these nasty critters!
