Tomorrow's Reality... Today

NAVY S.E.A.L.

CREATED BY: Paul Norman

UNDERWATER SABOTAGE — Parachute into the enemy's harbor and destroy his Naval Supply Depot and Ammo Dump. Make sure you're in position for the "Zodiak" pickup!

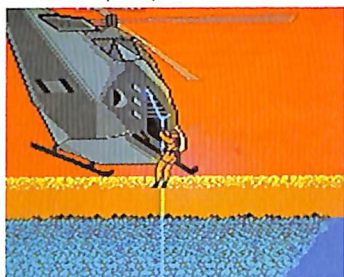

SEA-AIR-LAND COMMANDO "THE TOUGHEST MEN ALIVE!"

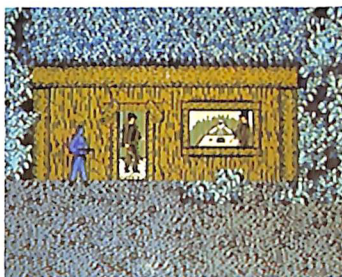

Live the adventure of the U.S. Navy's highly trained elite force as you create havoc behind enemy lines.

As a member of this celebrated special warfare force, you will be trained and tested in Basic Underwater Demolition (BUD) and the other skills required to meet your mission objectives. Learn to navigate underwater while you defend yourself from enemies of both the marine *and* human varieties. Perform high altitude-low opening (HALO) parachute jumps as you infiltrate undetected into dangerous territory. Employ clandestine commando tactics as you seek to minimize the danger of a secret surprise mission.

Experience the excitement of these special warriors as you meet the challenges of infiltration, demolition, sabotage and reconnaissance. Join the scuba-suited, hit-and-run raiders known as the most ferocious fighting men in the United States... "The Toughest Men Alive!"

HOSTAGE RESCUE — A Central American dictator/drug dealer is holding our Ambassador hostage. Infiltrate by helicopter and perform the rescue.

SURPRISE RAIDER — A Middle Eastern government has disguised a top-secret ABM installation as a harmless oil platform. Your mission is to gather documents revealing the plan and destroy the platform.
