NOBBY the AARDVARK

Graphics by: Jonathon Smyth
Design & Program: David Clarke

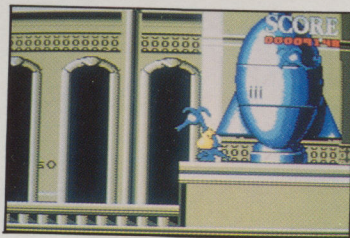

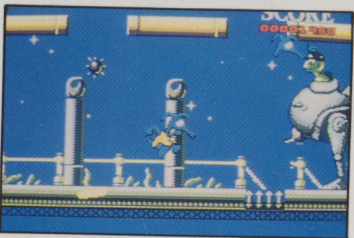

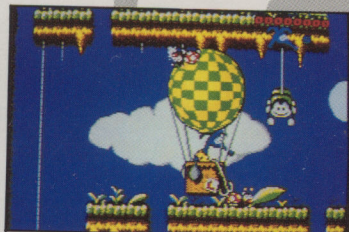

Antopia is a land of ants and a culinary delight to the likes of Nobby the Aardvark. With directions gained from a previous meal Nobby sets forth to eat his fill and battle his way through eight levels of superb arcade action.

Leap through the Wild West. Explore the ocean depths in a midget submarine and greet the inhabitants of the fabled city of Atlantis with a well aimed ant. Not to mention a hectic ride in a Hot Air Balloon, arm wrestling with an octopus or even a daring escape from a monster filled maze, plus a hair raising ride through a long abandoned gold mine then a laser battle with the mutants of Mars.

Have you got what it takes to guide Nobby on this adventure of a lifetime?
