PARALLAX

Ho hum. Another day on another routine space mission. Another routine planet to explore. Routine until you learn that an evil computer intelligence on the planet plots an imminent attack on Earth. Your task: Fight off aliens and mad scientists as you try to break into and destroy the central computer. (Not the stuff they taught you at astronaut school!) You'll need quick reflexes, quick wits, and quick thinking to come out of this one alive.

Features

- 3-D graphics: fly above and below the varied surface features
- Arcade-style action: repel waves of aliens with your laser guns
- Challenging puzzles: unravel password codes to gain access to the computers
- Multiple play levels: explore 5 different planet sectors
