

SPECIAL INSTRUCTIONS

FOR THE COMMODORE 64

Loading Disk:

Insert disk into the drive. Be certain both the drive and the computer are powered up — when the monitor screen is lit, type LOAD, press the space bar, then type "*", 8, 1 then press return.

If you have any problems booting the disk, remove it from the drive, flip it over and repeat the disk loading instructions.

Loading Cassette:

Place cassette in player. Press play button. Hold down shift key on keyboard. Press run/stop button once. Release shift key. When monitor screen reads "Found", push Commodore key.

If you have any trouble loading the cassette, simply remove the cassette, flip it over and repeat the cassette loading instructions.

Options:

Press [F3] for option menu. Press [F5] to change your selection, and [F7] to start the game.

Special Instructions:

Connect your joystick to Port 2.
