Head-to-head auto racing.

Introducing true competitive auto racing, both on the track and in the pits.

A split screen display allows two players to race against each other, fighting for the lead on the track and struggling to be the first out of the pits.

You'll need a race strategy good enough to beat an opponent. But remember, his strategy might be as good as yours. Then it comes down to a test of nerves, a test of guts. Grit your teeth and hope that your tyres and fuel hold out for another lap, because if you 'pit' now it may cost you the race!
