Polar pierre

The frozen arctic nights. The snow flurries and blizzards. Days so bright with the reflection of sun off snow that Pierre and Jacques can barely see. Above all, the obstacles. Hundreds of them, everywhere. Well, they knew the odds. They knew going in what the reward would be for finishing first.

GAME ELEMENTS.

Ski Jumps, mystery chalets, lifts, Electro-generators, shooting snowballs, springboards, stampers, thunder and lightning. One or two player option. Construction set to design and play your own screens.
