# PREDATOR 2™

## YOU'LL FIND L.A.'S LATEST VISITOR IS TO DIE FOR.

He's taking a bite out of Los Angeles and has the tinsel between his fangs to prove it. Hollywood's latest visitor is a brutal alien who finds sport in the killing of human prey! It's 1997, and for the people of L.A., this is a horror film come true. For Detective Lieutenant Mike Harrigan, it's all part of the crime grime he's sworn to scour from this manic metropolis. Or is it?

▼ You take on the role of veteran cop Harrigan in this fight-to-the-finish arcade game with each spine tingling level inspired by scenes from the movie.

▼ The Predator stalks a neighborhood where drug dealers are more common than vanity plates. Camouflaged, he prowls the concrete jungle undetected and armed with laser bolts and slicing discs.

▼ Catch your first glimpse of the alien attacker during a down and dirty street battle between rivaling drug empires.

▼ Collect powerful weapons to save your fellow officers and avoid the innocent civilians and news reporters to save your badge.

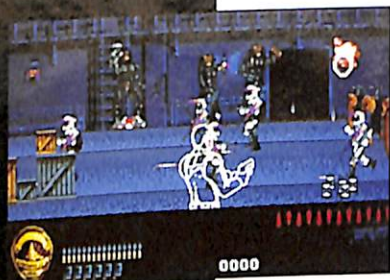

▼ Say no to drugs again in a kingpin's penthouse apartment where you collect ammunition as you follow a trail of victims in the wake of the beast's destruction.

▼ Board a subway train where the shoot-out continues and flickering lights plunge parts of the train into volatile darkness.

▼ Your mission ultimately leads to the Predator's den, a slaughterhouse where you'll fight to the death, man against invisible maniac.

▼ Tap into your streetwise resourcefulness and devise a way to destroy the creature's invisibility mechanism and defeat the undefeatable.

▼ Those hours on the target range had better pay off because tonight's the night you start cashing in and the stakes don't get any higher than this!
