When you select START GAME, the helicopter will hover, giving your team mates enough time to slide down a rope and dash into the jungle. Soon you'll appear, as Major Alan Schaefer, dressed in combat gear and ready for action.

From here on, it's up to you.

Take each step with great caution, remembering you're in uncharted jungle, where anything can happen. And it will! At the top of the screen, a display shows the number of lives you have remaining, with an energy level beneath. When the display shows no lives and no energy ... it's over for you!

The weapon you currently have is shown in the centre at the top of the screen, together with it's ammunition level.

You may drop this weapon and pick up another if you find one on your mission. Several different arms may be found, together with spare ammunition. Choose and use your weaponry with great caution.

You'll find more of your team as you progress further into the jungle - nearly all horribly mutilated. Remember, survival is the name of the game, so look at any weapons you may find of theirs and decide if you'll need to swap for your current one.

CARICAMENTO
