You, as the king's newest advisor, must accompany his champion, Gorn, on a mission to rid the kingdom of a vengeful dragon terrorizing the southern provinces. The king has instructed Gorn to heed your advice, as you venture out on your journey to explore Balema and find the reptilian menace.

Complete with stunning hi-res graphics (or course!), over 200 locations, and a parser that accepts full and multiple sentence instructions, The Quest takes two sides of a disk. There are even many ways to complete your mission, and still much left to be discovered after the first time you solve it. You've not seen anything like it!
