

**STUNNING CHART HIT!** "Rastan actually plays like the original... you'll be a fool if you miss it!" **YOUR SINCLAIR**

**BRILLIANT COIN-OP ACTION**

Screen shots taken from various computer formats

**RASTAN**

JOYSTICK ONLY

The evil wizard, Karg, thwarted by Rastan in his attempts to overthrow the throne has opened the portals of hell and unleashed a variety of beasts and demons upon Maranna. Only one man has proved himself true enough to confront the hordes; the king himself - Rastan. His task... to fight his way through the countries of his continent, killing beasts and demons in order to reach the far-off land of the wizard and the final confrontation with Karg himself, in his deadliest guise, as the soul-sucking dragon.

### LOADING

Press the SHIFT key and the RUN/STOP key simultaneously. Rastan is multi-load game so the play button should be left depressed after each section is successfully loaded.

### CONTROLS

The game is controlled by joystick in port 2.

Music or sound effects can be chosen on the title page by pressing the space bar.

### WHILST ON THE GROUND

FIRE - Use current weapon in facing direction

FIRE AND UP - High jump.

### WHILST JUMPING/FALLING

FIRE - Use current weapon

### WHILST CLIMBING A ROPE

FIRE - Use current weapon in facing direction.

### PLAYING

Proceed through all six levels reducing your enemies to sword fodder, along the way collecting more powerful weapons. Some of your enemies may carry the following useful or dangerous items.

SHIELD - Reduces damage

MANTLE - Reduces damage by half

ARMOUR - Stops all damage for a limited time

MEDICINE - Replenishes energy

POISON - Depletes energy

RAM'S HEAD - Totally replenishes energy

JEWELS - Bonus points

RING - Weapon speed up

NECKLACE - Doubles points

ROD - ??Mystery??

Each level has a powerful adversary to be defeated at the end before you can progress.

Rastan can increase the power of his weapons and utilise mysterious powers, the discovery of which will aid your survival and help you complete your heroic quest.

## LADEN

Die SHIFT - und die RUN/STOP-Tasten gleichzeitig drücken.

## STEUERUNGEN

Das Spiel wird mit dem Joystick in Port 2 gesteuert. Je nach den Umständen hat die Joystick-Steuerung die folgenden Effekte:
