ROBOTRON: 2084*

Atari currently offers the following games on Commodore 64 cartridges: Pac-Man, Centipede, Defender, Dig Dug, Donkey Kong, Stargate and Robotron: 2084. And there's much more to come!

The world's most popular video games can be yours to play at home, now that Atari makes them for the Commodore 64. And the possibilities don't stop there. More compatible software will be available soon from ATARISOFT, including educational, management and productivity programs.

THE ROBOT REVOLT HAS BEGUN

THE THRILL OF THE ARCADE GAME

It's the year 2084, and robots are turning against their masters. Saved by a genetic accident, only you can resist their mutant re-programming and defend humanity. Grunts close in. The Brains launch missiles. Tanks, Sheroids and Electrodes spell death. And then, there's the Hulk-immune to your laser. Your mission is to rescue, evade and destroy. Good luck.
