"This is one of the best Shoot-em-ups this year-possibly THE BEST" (Zero Nov 1990)

AMIGA

AMIGA

"I haven't seen a decent shoot-em-up for ages (in fact Silkworm was probably the last). Now this looks set to end with a product from the very same Silkworm programmers that could challenge the mighty R-Type itself!" (Zero Sep. 1990)

"The result is as pretty as the night sky on Nov 5th, and just as exciting. A superior Shoot-em-up" (CU Amiga Oct 1990)

SPECTRUM

CBM 64

Saint Dragon features:

- Five levels of fast furious shoot-em-up action.
- Arcade quality graphics.
- Meaner mechanised monsters than the future of law enforcement.

An evil force of monster machines has risen to conquer the Galaxy. One by one the peaceful races of the Galaxy have been attacked and enslaved by the Cyborg Monsters. No race has the strength to stand against the power of the Cyborgs. One lone rebel rises from within the ranks of the mechanised monsters. Part dragon, part machine, the Cyborg Warrior fights back against the tyrant masters. The Galaxy has a Hero. Hope returns to the hearts of the people at the rise of the armoured champion they call "ST DRAGON". In this reverse of the Saint George legend you must fly the Armoured Dragonship through five levels of non stop destruction. Choose between fireballs, bouncing bombs, ring lasers and turret weapons to blast your way through the armoured pumas, mechanical cobras, giant cyborg bull and a host of other mutant machines. But remember fire power isn't everything! Your ship has an armoured tail. Use it well and you may just survive.
