SLIMEBALL

THE STORY

You control L.I.N.D.A. – the Laser Incorporated Nasties Disposal Android – who as you might have gathered is not a cuddly toy but a dedicated killing machine, specially created to clear the sewers of the assorted nasties that have taken them over.

You must guide her path through the sewers, killing anything that gets in your way and recover the eight grenades that are scattered around. When you have gathered a grenade you must take it immediately to the lair of the green slime. When you have gathered the final grenade, you must proceed to the lair of the green slime and use all of the grenades to destroy the slime completely. Failure to accomplish your mission will be regarded as cause for a full disciplinary hearing.

Contact with any of the aliens in the sewers will cause loss of power. Total loss of power will cause loss of life.

Falling into the water or into the spike pits causes complete loss of life, as does contact with the pods.

LOADING INSTRUCTIONS

Hold down SHIFT and press RUN/STOP.

CONTROLS

Joystick in port two only. Controls are left to move left, right to move right. Up to jump, down to report and fire.

Report gives you a full status report on your mission. It can be called at any time during the game and causes the action of the game to pause while the report is on the screen.
