

A man in a white tennis outfit is captured mid-air, jumping to hit a tennis ball with a racket. The background is split vertically: the left side is a dark purple/maroon color, and the right side is a deep blue color. The man is positioned in the center, with his body angled towards the right. The title 'SERVE & VOLLEY' is printed in a serif font across the top, with the 'S' and 'V' partially overlapping the purple and blue background respectively. The word 'ACCOLADE' is printed in a similar serif font across the bottom, also spanning both background colors. In the bottom left corner, there is a yellow rectangular box containing technical specifications for the game's compatibility with Commodore computers.

SERVE & VOLLEY™

Designed by Artech Digital Entertainments, Inc.

The most realistic computer tennis game ever made!

Accolade is known for its breakthrough sports simulations. Now, Accolade presents Serve & Volley—the only computer tennis simulation that truly captures the essence of the game.

Serve & Volley gives you the action and strategy of real tennis with...

- Full tennis court 3-D view with action windows displaying Accolade's unique Strobe-O-Stroke™ graphics
- Three levels of tennis play: beginner, intermediate & advanced
- Three different court surfaces: grass, clay & pavement
- Full complement of strokes: top spin, slice, smash, lob, volley, forehand & backhand
- Match or tournament play with players seeded at each level
- One player vs. computer or two-player action
- Adjustment of playing attributes including endurance vs. speed; accuracy vs. power; forehand vs. backhand
- Option to save players' stats; the computer can play a match according to any two players' stats while you watch

Even the royalty of center court can get dethroned by an unseeded phenom. But it will take more than strength, speed and stamina. You'll need the tenacity, mental toughness and court savvy of a wily veteran to rise above the top-ranked contenders.

That's life on the tour. That's Serve & Volley.

ACCOLADE™
The best in entertainment software.™

550 S. Winchester Blvd., San Jose, CA 95128

Serve & Volley comes with 3 open courts and no waiting. (Sure beats the club, eh?) Choose match or tournament play, the difficulty level, sets per match, even the court type (clay, grass or pavement).

Want to serve with accuracy and power? Serve & Volley's exclusive Strobe-O-Stroke™ graphics give you the advantage. The animated boxes allow you to aim your serve and select the shot type (top-spin, slice, etc.)

How will you return the serve? Forehand or backhand? Lob or smash? In Serve & Volley not only is timing critical—you've got to make split-second decisions. Hear the ball smack the racquet. If you're on, you'll hit a winner. If you're off, you'll flail at air.
