# SHADOWFIRE

The situation is critical. General Zoff, traitor to the Empire, holds Ambassador Kryxix captive aboard his skyfortress, Zoff V. Hidden inside Kryxix's spine are top-secret plans that, if discovered, will allow Zoff to destroy his ship. At your command is the elite Enigma team. As you design your attack strategy and control team members, remember that the clock is ticking. You have exactly 100 minutes of real time to accomplish your mission.

## Features

Graphics enhance adventure game format

Picture-based commands control action

Real-time conditions add excitement
