OBJECT OF THE GAME

The object of the game is to reach the very core of SHADOW's lair and destroy him. This is accomplished by progressively exploring the various colored levels of the lair and accumulating the greatest number of points, bonuses and extra lives.

In order to overcome all of the obstacles and dangers that infest the lair and triumph in the final battle with SHADOW you must familiarize yourself with all 32 rooms of each of the colored levels and retrieve the correct colored keys for all of the passages. This is the only way to gain entry from one level to another.

Unlike text adventure games, SHAMUS can only be mastered by a long and arduous training period, in which your reflexes are sharpened to a point where you can deal with the incredible speed and viciousness of the attacks of the SHADOW and his henchmen.

Shamus

You are the SHAMUS. You may move in any of eight directions by using the joystick connected to JOYSTICK PORT 1. You may shoot your ION-SHIVS in any of eight directions by pressing the TRIGGER button on your JOYSTICK and then moving the stick in the desired direction.

Ion-Shivs

ION-SHIVS (Ionic-Short High Intensity Vaporizers). These weapons are banned in every part of the galaxy. They totally disintegrate any life form upon contact, unless shielded by Tri-Gamma body armor. CAUTION: You can only have TWO ION-SHIVS on the screen at any one time.

Whirling Drones

Never underestimate the ferocity of whirling drones. They are sneaky, and intensely sensitive to movement within the passages of the LAIR. They are armed with molecular disruptors.

Robo-Droids

Relatively slow moving semi-mechanical androids. These droids are methodical and never give up. They are also armed with disruptors.

Snap-Jumpers

These self-propelled annihilators, cannot "think". This feature however makes them all the more dangerous. They are a strange mutation who exist simultaneously, in two dimensions. They "snap" in and out of your time-space continuum and are therefore unpredictable and because of this quality extremely quick. Their speed makes them VERY DANGEROUS.

The Lair

The LAIR consists of four levels of thirty two rooms each. The colors in order of progressive difficulty are BLACK, BLUE, GREEN and RED.

As you progress from one level to the next the action increases in speed to the insanely fast LEVEL RED. You gain extra points for completely clearing each room of intruders.

Keys and Keyholes

Each of the colored levels of the LAIR contains various colored keys which are paired with matching colored keyholes. These KEYS are picked up by SHAMUS by touching them. As they are touched they are displayed in the right hand bottom of the screen. When encountering a KEYHOLE of the matching color, SHAMUS merely makes contact with the keyhole and the wall retracts permitting you to proceed through the LAIR. If the wall does not drop you have not obtained the correct color coded key. You must retrace your way through the LAIR to find the KEY, otherwise you will not be permitted past the KEYHOLE.

Extra Lives

The current number of lives are displayed in the upper right hand corner of the screen. If you encounter a bubbling bottle in a room you need merely to touch it to obtain an extra life. You may accumulate as many extra lives as your skill allows.

Question Marks

By passing over these pulsating question marks you will invite either bonuses or disaster!

The Shadow

The arch-villain himself is constantly monitoring your activities in his LAIR (He knows when you are sleeping, he knows when you're awake, etc.).

Be extremely careful when you hear a low pitched pulsing begin. This is a signal that SHADOW is about to enter the room. You CANNOT kill SHADOW since he wears TRI-GAMMA armor. You can however, stun him. He remains stunned only for a short time after which you had better move quickly.

Only in the deepest recesses of LEVEL RED will you find the answer to this puzzle!

Pod Rooms

These rooms exist in another dimension and there is only a small time window through which to gain entrance.

Skill Levels

There are four levels of play. These are selected by pressing the (SELECT) button. Each level is SUBSTANTIALLY more difficult than the last, so choose wisely.

Playing Tips

1. Observe the various characteristics of your opponents, and take advantage of their weaknesses.
2. Practice, practice, practice.
3. Play with a friend who can keep track of where you are in the LAIR, while you fight for your life.
4. Retain your sense of humor!

If anyone can overcome the SHADOW, only the SHAMUS can.
Good luck!!!!

SHAMUS

***Four levels of intense arcade action.
Requires Atari 800 or 400 with 16K and joysticks.***

You've finally made it. Your nerves and your guts tell you he's here . . . and the smell. The sickeningly sweet odor of decomposing fruit; the SHADOW's trademark. Now all that's left . . . to find and destroy him before he returns the compliment.

You didn't know it was going to be this hard. After all, it is the 21st century and your ION-SHIVS are probably the most dangerous weapons in this part of the galaxy. They can drop a fully screened sniffer-droid at 300 meters!

Out of the corner of your eye, a small black shape darts up to the door and noiselessly enters the building across the rocket pad. The memory of your last encounter with the Shadow jolts you, like a neuro-stunner set on max. Images of ROBO-DROIDS, that just don't know when to quit . . . dark, sneaky WHIRLING DRONES from a timeslip star system . . . and the lightening quick SNAP-JUMPERS, that fry you for looking at them cross-eyed, flicker through your mind. Still you've handled them before . . . The big boy himself, SHADOW, is the one you're after!

As you silently enter the door coordinates into your teleporter, the scanner indicates that there are four colored levels of 32 rooms each, and every room is bristling with danger. You know it won't be a high school prom when you transport into the Shadow's lair but there is no turning back. So with a grim chuckle, you reach for the bottle of Nervo-Stim and energize the transporter. You're ready as the Stim slides down warmly and your biosensors click into high gear!

Tell the Shadow that SHAMUS is here!
