

SIGMA 7

Arcade Space Adventure

**Commodore
64/128**

Requires 1541/C/1571
or Enhancer Disk Drive
Joystick Controlled

AVANTAGE

Your worst nightmare has come true! You settle into the cockpit of your starfighter. A red light flashes urgently on the flight console. A message from intelligence? The onboard computer quickly deciphers the garbled transmission. "Aliens are near completing an invincible battlestation... code name Sigma 7... must not reach full operational status!"

Sigma 7: The most destructive force in the universe. A hostile alien race has completed the ultimate weapon: Sigma 7, the most powerful interstellar battlestation in the cosmos. When fully operational, it can thunder across the galaxy laying entire solar systems to waste.

One starfighter against an alien battlestation. Star Control knows that a full-scale assault on the battlestation would be futile. Sigma 7's defense lines are too strong. But a lone starfighter might be able to sneak through unnoticed. You might be able to penetrate Sigma 7's security and render the weapons system harmless.

Pull down your visor. Fire up the cobalt engines. It's time to embark on the most challenging mission of your life.

Seven stages of interstellar arcade adventure! Sigma 7 redefines the term "arcade action." You'll climb through seven pressurized stages of difficulty, each containing three grueling levels of gameplay. Scream past swarming space mines in your starfighter and then blast them to alpha-bits. Plaster deadly alien robots with salvos from your laser tank. Each and every phase of Sigma 7 bombards you with state-of-the-art 3-D graphics and thrilling synthesized sound effects.

RADIOACTIVE "TAG": Once inside Sigma 7, you're engaged in a deadly cat and mouse game with robo-mines. You've got to clear the pathways of lethal radioactive deposits before the aliens can home-in for the kill.

7's main control room, you only have a few critical seconds to decode the weapons configuration. Press the wrong button in the wrong sequence and the sleeping giant will awake and crush everything in its path... starting with you!

RAPID FIRE ACTION: After taking off from your home base you've got to fight your way through Sigma 7's space mine defenses. The distance between space stations and the waves of space mines increase with each new stage.
