SILICON DREAMS: *taking the role of Kim Kimberley and one of his descendents you are a leading participant in the colonisation of Eden, a planet prepared for human habitation by an advance guard of intelligent robots, who battle with the native and highly aggressive fauna. In this highly structured and realistic environment you must move your mind into the twenty third century.*

SNOWBALL

On board the colonisation ship Snowball you are awoken prematurely from hibernation – something must be wrong...

RETURN TO EDEN

Escaping to Eden, you must make your way to the Robot City of Enoch, but the crew of Snowball want revenge...

THE WORM IN PARADISE

Something is wrong in Enoch, but what? And how to solve it? As a mere citizen, do you stand a chance?
