Silicon Warrior™

The scenario is The 3-D Power Grid. You're one of the four Silicon Warriors. Your mission is to program five of the chips in a row—vertically, horizontally or diagonally before any of your opponents can do the same. They will try to beat you to the task and steal the program or destroy you with laser fire, or you might even be swallowed up by a black hole 'glitch' in the program. You teleport from chip to chip, programming it in your colour. The battle intensifies through seven levels of play. May the Force be with you!

Type of program : Action game
No. of players : 1-4
Age category : 8 and up
Controller : Joystick
Skill levels : 7
Game speeds : 3
