

CASSETTE LOADING INSTRUCTIONS

Silicon Warrior™

Switch the computer off, connect a joystick to Port 2, and C2N Datasette Unit.
Switch the computer on.

Place the cassette in the C2N and fully rewind the tape to the left. This game includes a fast load programme which reduces the loading time to about 2 minutes.

Type LOAD "SW" and press RETURN when the computer has replied LOADING and READY type RUN and press RETURN.

When the computer replies FOUND ZIP press the SPACE bar.
The game will start automatically when ZIP has finished loading.

If loading difficulties are experienced, check that the read/write head cleaning and demagnetising has been carried out as described in the Datasette Unit Operating Instruction, at least every 10 hours. Switch the computer off and on each time the game is loaded.

DISK LOADING INSTRUCTIONS

Silicon Warrior™

Switch the computer off and remove any cartridges. Connect a disk-drive, and a joystick (Port 1 or 2). Switch the disk-drive on, then switch the computer on.

Insert the disk, label upwards, and type:-

LOAD "*", 8, 1 and press RETURN.

The computer will reply:
SEARCHING FOR "*" 
LOADING
READY.

Type RUN and press RETURN.

The title page will appear, and the game will automatically start after about 1 minute loading time.

Follow the playing instructions given in the booklet.
