

ATTENTION C-64/128 OWNERS:

Some of you may have SimCity for the C-64/128 version 1.1 and not know it. Some units were shipped with V 1.0 labels on the disk. If your game came with the "MANUAL AND SYSTEM CARD CORRECTION," (a small piece of paper) then you have version 1.1, and there is no need to upgrade. Sorry for the confusion,

Simcereley,

Maxwell Maxis
