A R C A D E SKATEROCK™

It's Skateboard Mania! All of the bad dudes are out to prove themselves. Ten courses are set up around town and each skater takes his turn thrashing his way around them. The object is to hit the eight flags placed along each course and reach the finish line before time expires. The competition is rough, but you're as radical as the rest of them. The course is set, the flags are up and the clock is ticking, so pull on your knee pads, grab your skateboard and let's rock!
