

ARCADE ACTION GAME FOR PERSONAL COMPUTERS

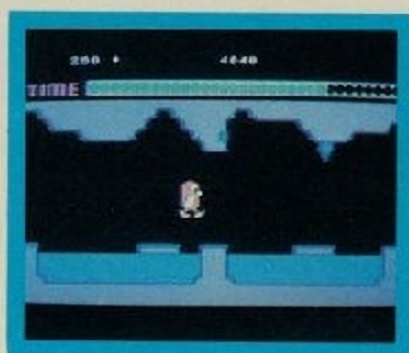

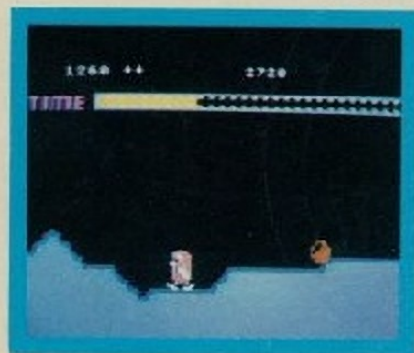

FUNSOFT

SNOKIE™

Deep in the lands of the frozen north lives a little known race called "sno-birds". Likeable and trusting creatures, they only get angry when compared to their remote cousins, the penguins. Sno-birds are highly intelligent and quite good at jumping but cannot fly. Above all, they are afraid of water. In fact, contact with water is usually fatal for a sno-bird!

A young sno-bird named SNOKIE is the hero of this adventure. SNOKIE has been separated from his girlfriend CARA by evil "groodies" who have captured her and are now holding her prisoner deep in a snow cave. Join SNOKIE in his rescue attempt to save CARA! Experience the trials of an arctic adventure like none other!
