Magic and Logic. Luck and Skill...

Spherical—the game of opposites. Quick! Move forward two blocks. Point your wand and add a new wall. Now back up. Create some steps and scurry up to the next platform. Check the clock. Hurry! Not much time before the ball starts rolling. Open a hole in the floor. That should send the ball to the next level. Just in time too! Here it comes...

■ Each screen is a race against time. Solve the puzzle before the ball starts rolling or it might be too late!

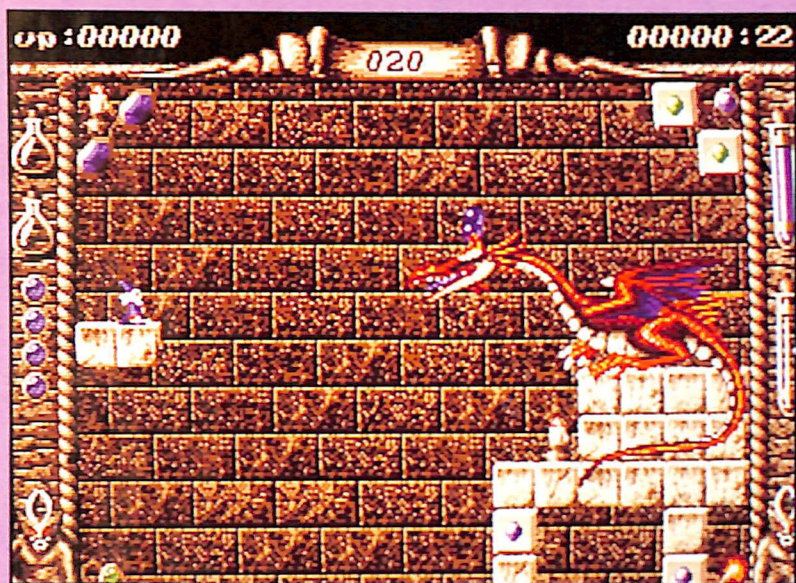

■ Pick up valuables, magic potions and scrolls to rack up points and help you finish your task.

■ Tackle the obstacles alone or team up with a friend for twice the action. 100 levels for one player; 100 new levels in two-player mode.

■ Battle incredible spiders, enormous dragons and more at the end of each 10 levels.

3431-A Benson Avenue, Baltimore, MD 21227, (301) 646-5031

■ Watch out, each level has its own set of creatures who will try to stop you in your tracks.

■ Collect magic or time stop potions, increase your jumping power, reverse gravity... whatever it takes to get the job done.
