SPIRIT of the STONES

In October 1983 forty diamond talismen were hidden on the Isle of Wight on the 31st of that month. A much larger talisman, called 'The Great Wight Eye' with its beautiful diamond, was also hidden. The clues to their secret hiding places are within the software and the pages of SPIRIT OF THE STONES, a book of mystery by John Worsley.

Both are contained in this pack.

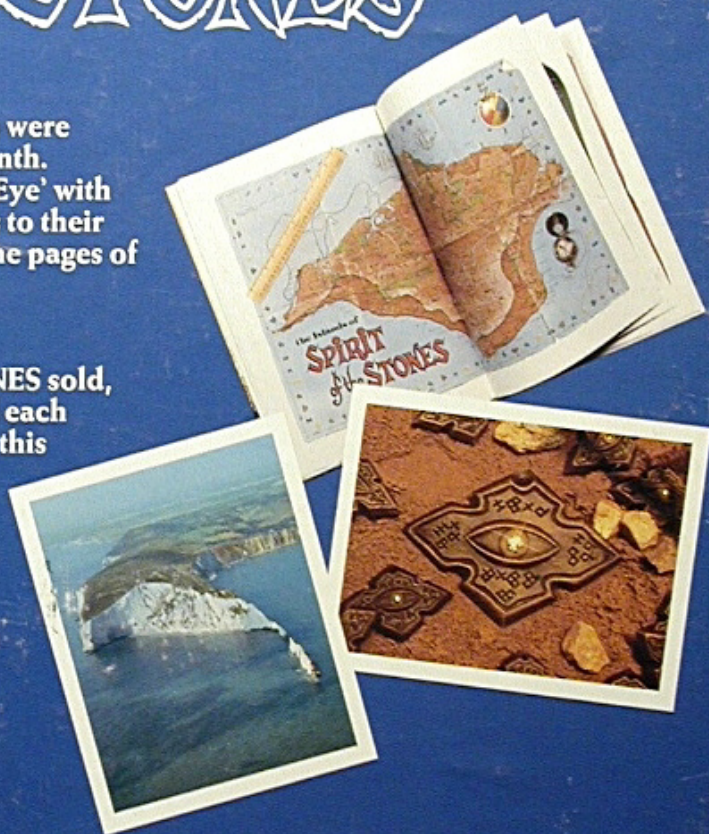

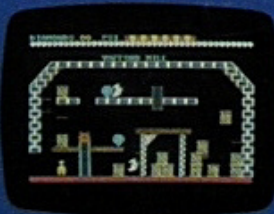

For every copy of SPIRIT OF THE STONES sold, £0.50p is deposited in a special Royalty Fund and each talisman discovered will earn its finder a share of this ever-increasing treasure it could be YOU.

SPIRIT OF THE STONES represents the best in graphic Action/Adventure software. With the aid of your Commodore 64 and an adventurous spirit you can experience the challenge of the Island's mystery and its hidden wealth.

On entering the game you will find yourself on a scrolling map of the Isle of Wight with a choice of 21 buildings in which to search for a total of 40 diamonds. However, to retrieve these diamonds you must travel the length and breadth of the Island on a screen of exceptional graphic quality, entering each of the different buildings, to meet the challenge of the unholy spirits which will haunt you there.

Each diamond collected reveals part of an ancient riddle and this riddle is a clue to the meaning of the secret runes of the Wight Eye. Understanding the Runic Alphabet, together with the clues collected throughout the game, will help you on your way to an answer to the mystery and a share of the treasure.
