SMASHING GAME!

SQUISH 'EM™

How far would you go for a suitcase full of money? Would you climb a 48 story building? How about a building still under construction? Yes? If there were bricks falling from the roof aimed right at your noggin? And what if it were crammed full of creepy critters trying to knock you off? Still interested? Well then, go play Squish 'Em! Squish 'Em — with amusing and colorful graphics and 15 levels of stompin' good times! Why is it called Squish 'Em? Well, remember those pesky critters that chase you around the building? Of course you could dodge 'em, or even jump over 'em. BUT, it's much more fun to time your leap just right and . . . Squish 'Em!
