THE RUBICON ALLIANCE™

The Rubicon Alliance has brought peace to the eight planets of the Hyturian Star System. Not only does the Alliance prevent inter-planetary war, but it has led to the mutual development of an anti-matter force field: The Rubicon.

All is well in Hyturian until the pirate planet, Nono, stealthily slips through the outer fringes of The Rubicon and begins raiding solar shipping, lasering outposts, and generally misbehaving!

As the starfighter Hawkins, your quest is to find Nono and confront it in battle. The trek requires eight successively difficult missions, each with a specific goal. You have a limited time constraint to complete each mission and must dock frequently with Mother Ships to replenish your supplies. The 3-dimensional Holocube stellar map is relied on to chart planets and the flight path of enemy craft.

Using Ultimate Warfare weapons and guidance environments, you must discover how to defend the Alliance; find out how the Rubicon has been breached; and hunt Nono to the finish.

- Starfighter cockpit controls
- 3-D locator map
- Overhead readout
- Dual flight logs
