UNA CUM'S LAIR

Corrine, the beloved wife of Storm the Warrior has been abducted by the evil Una Cum and is being held prisoner against her will in his laboratory lair. Una Cum has left her closely guarded by his evil minions and has set off on a mission to locate the box which contains that legendary all powerful artifact THE FEAR.

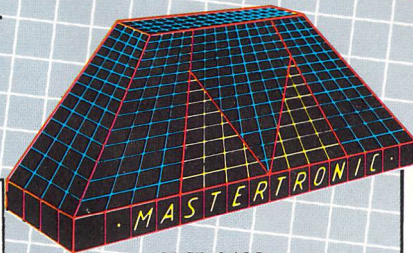

Storm realises that should it fall into the wrong hands THE FEAR could cause untold damage, but first aided and abetted by his comrade the powerful Wizard Agravaïn he must find a way into Una Cum's castle to rescue his Lady Corrine.

Una Cum has of course anticipated this and Storm and Wizard Agravaïn must pits their wits against the four traps he has laid to snare them and the evil minions who will do anything to prevent Storm from reaching the laboratory.

Take the part of Storm (or Agravaïn the Undead) in this multi-role, one or two player all action real-time adventure to rescue the Lady Corrine.

Heed the lady's cries and prove your warrior's abilities...
