

STREET FIGHTER

A silhouette of a person in a martial arts stance, viewed from behind, standing in a dark, narrow alleyway. The person is facing a bright, hazy light source at the end of the alley, which creates a strong backlight effect. The ground is wet and reflective, showing the person's silhouette. The overall mood is dramatic and mysterious.

STREET FIGHTER

**So you think you're mean enough?
Eight bad dudes say otherwise.**

Do battle in the back alleys of the Big Apple. In the shadow of ancient Chinese temples. In not-so-jolly old England. And win the grudging respect of eight of the toughest, meanest street fighters on the planet.

Forget everything you know about playing by the rules. This is strictly survival of the fittest! You'll need power, speed and plenty of street smarts. Watch out for Geki and his Ninja weapons. Birdie's lethal head butt. And the flying scissors kick of Gen.

You've got a few tricks up your karate sleeve, too—a martial arts arsenal that includes hurricane kicks and dragon punches. Don't hold back for even an instant.

- ▶ Take on 8 of the world's toughest street fighters, one fight at a time.
- ▶ No-holds-barred, best-two-out-of-three competition.
- ▶ Fight in England, China, Japan or the U.S.
- ▶ Punch, kick, block or duck punches, deliver karate chops and flying kicks—just like a real street fighter.
- ▶ Defeat all 8 fighters and get set for the ultimate street battle—your final test.

No fancy hotels or five-star restaurants on your itinerary. The only sights you'll see are the baddest dudes on any street corner anywhere.
