"PREMIER WORLDWIDE ARCADE GAME DESIGNER"

STREET FIGHTER™

Screen shot from Commodore System.

It's Brute Force vs Brilliant Fighting Skills! Your battling buddies RYU and KEN are young masters of the martial arts. You know all their best moves, and now 10 street fighters from around the world are waiting.

Your battles take you to the five corners of the globe. But don't stop to look at the scenery, or these thugs will swiftly punch your passport, or worse! You can stop fierce

assaults with shrewd jumps, flips and stoops... then counter with precise kicks and punches.

Your first match is in Japan against RETSU and GEKI. Throw all the right punches and you'll take on MIKE and joltin' JOE in the U.S.A. Then on to England for a bloody-good battle with BIRDIE and swift EAGLE. Next, you'll find yourself in China, trying to make chop/chop suey out

Screen shot from Commodore System.

of GEN and LEE.

Your last round will match you with The Unknown from Thailand. This horrible twosome is said to be the strongest, meanest in the world. Can you pit your well honed skills and muscle against the no-holds-barred street fighters of the world?

WARRANTY

Warranty is 90 days on the recording media and does not apply to the software programs.
