THE ULTIMATE TERRORIST THREAT...

The entire world is being held hostage by a madman, a megalomaniac whose only goal is the domination and slavery of the freedom-loving people of America.

An unknown madman, known only as "The Enemy," has cracked the security codes of the Top Secret computers at the Kremlin and the Pentagon. Unless the world makes him Supreme Ruler of Humanity, he will destroy our planet—1 million megatons of death and destruction will be unleashed on the Earth.

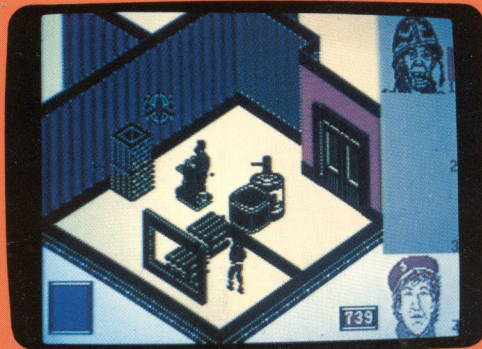

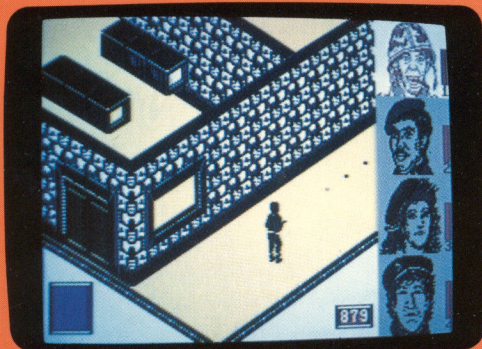

In an unprecedented move, the World Powers have assembled a crack commando squad to move in on The Enemy's headquarters and destroy his outpost before he can destroy the Earth.

Strike Force: Cobra. Eight highly-trained commandos, from the four corners of the earth. You are their leader, and it is up to you to accomplish the most important mission you

will ever face. Kick down doors, lob grenades and destroy enemy robots in your quest to save the world.

Strike Force: Cobra is the finest 3-D combat simulation available. It features:

- Stunning 3-D perspective
- Independent control of each Cobra operative
- Fast, full-body animation
- More than 250 different locations on three levels
- Superb sound effects
- A full range of commando weapons and tactics
