Stunt Track RACER™

Race over 200 miles per hour on a narrow track hundreds of feet high, with all the twists and turns of a rollercoaster — but without the guard rails. Pray your car sticks to the road as you scream through hairpin curves. Learn to fly as you soar off ramps that appear without warning. Brace yourself for a merciless landing on the other side.

On a course like this, you might think survival is enough.

But you're not racing yourself. You're up against drivers who know these turns, and who know how to fly. They won't be racing to survive. They'll be racing to win. And on the stunt track circuit, winning is everything.

- Fast-scrolling screens give you the feel of authentic racing action!
- Challenging tournament play, realistic scoring, and practice modes for all tracks.
- Compete in the Stunt Track Racer League, with four divisions, eight tracks and 11 other drivers.
- Advance to the Super League — with four more divisions of racing challenge, but with greater engine and braking power!

One of eight challenging tracks designed for high-speed thrills!

You're in the driver's seat — at the center of the action.

"... the speed and feel is breathtaking — nothing else comes close on a home computer... the fastest racing game to be found outside an arcade. Blows away all four-wheel opposition... [Stunt Track Racer] is in that rare category of game that offers simple thrills and demands nothing except continual playing!"
