

SUICIDE STRIKE

commodore 

FROM AMERICA

In every conflict, there comes a time when an important military target must be destroyed at all costs. A SUICIDE STRIKE!

As you set off for the target, you should be aware of two things. You have only a limited amount of time to get to your target and only a limited amount of fuel. The faster you fly, the more fuel you'll consume.

PLAYING THE GAME

The first wave of defenders you'll encounter consist of helicopters. Fly your way through them you'll be met by a tank convoy. Fly low and fast to take them out. Backing up their tanks come the Jet Fighter Squadrons. Make sure you hit every one, if you miss they will reappear behind you a few seconds later in your rearview mirror. When this happens move your tail because if one of their jets strays in your path you'll get your tail shot off.

JOYSTICK CONTROL

FORWARD = Decreases altitude. BACKWARD = Increases altitude

FORWARD; (While pressing Fire button increases flying speed.)

BACKWARD; (While pressing Fire button decreases flying speed.)

F1 = START F3 = PAUSE F5 = DEMO

TO LOAD; Press "SHIFT" and "RUN-STOP". Program will auto-run.

PLUG JOYSTICK INTO PORT TWO.
