THAI BOXING

Thai Boxing is a great spectator sport combining the lightning moves of karate with the brute strength of boxing. Thai boxers are also famous for their agility. In this sport there are no rituals or constraints. They have just one aim - to inflict as much punishment as possible in the shortest possible time. Now this fantastic sport is brought to life on your computer screen in **Thai Boxing** - the ultimate in superfast joystick operated beat 'em up action!

With two player or one player versus computer options, **Thai Boxing** gives you two athletic fighters, brilliantly depicted in 3D graphics against a variety of exotic backgrounds. Full joystick control gives you a vast array of attacking and defensive moves. Lightning-fast kicks and punches fly, while each fighter's face in detail reflects the punishment that is being handed out, and the stamina meters keep track of their energy - until finally one fighter will fall - will it be you? Find out in **Thai Boxing**!

THAI BOXING

LOADING

If you are using a C128, put it into 64 mode before loading. Press the SHIFT and RUN/STOP keys simultaneously. The program will need to load extra levels in during the game, so leave the PLAY key depressed.

CONTROLS

Control is by Joystick only...

BLUE TROUSERS - Joystick Port 1

FIRE BUTTON OFF

FIRE BUTTON ON

WHITE TROUSERS - Joystick Port 2

FIRE BUTTON OFF

FIRE BUTTON ON

GETTING STARTED

When the High Score table appears, move your cursor to the desired options and select by pressing FIRE...

NAME - Allows you to enter both boxers' names so that they will appear in the High Score table.

GAME - Choose this to Start Game.

NO. OF PLAYERS - Choose 1 or 2 Player option.

DLOAD - Load the High Score table.

DSAVE - Save the High Score table (use a spare tape).

TTAPE - Transfers High Score table from tape to disk or vice versa.

PLAYING

There are six levels of play, increasing in difficulty. Each level consists of three rounds of one minute each. The fighters' faces at the top show the damage they are suffering, and the two stamina bars show their energy reserves. A round may be shortened if one boxer's stamina runs out. It is possible to recoup stamina by retreating, but you are advised to be careful in case your opponent uses this opportunity to deliver a flying kick!

The MICRO Selection, 36/38 Southampton St.,
Covent Garden, London, WC2 E 7HE.
