THE PSS WARGAMERS SERIES

The PSS Wargamers Series has been created to combine elements of a strategy game like chess with the added excitement of Graphic Arcade Sequences.

The games require skill and mental agility and are designed for the person who wants a serious but stimulating game.

The Strategic Level of the games is played on a map system whilst the tactical elements of the game can if wanted be played in an arcade style with you actually firing guns and missiles etc.

THEATRE EUROPE – THE GENERAL SCENARIO

Theatre Europe portrays the next war in Europe. The player can choose to take the role of either the supreme commander of N.A.T.O. Forces or of the Warsaw pact and has command of ground, air and nuclear units. The Battlefield is from Portugal in the West to the Crimea in the East, from Finland in the North to Yugoslavia in the South.

THEATRE EUROPE – THE GAME

Theatre Europe simulates the first 30 days of the war. In addition to being able to command either side, the player is able to choose the style of his opponent (The Computer). The 1st level is a beginners level, where the computer opponent will not use the nuclear option. If he selects level two, the computer will play a "Rational" game following the accepted strategies of NATO or the Warsaw Pact. In level three it will play a highly unpredictable game.

Theatre Europe is available for the following machines: Commodore 64, Amstrad CPC464, Atari, MSX. Phone for details.

Whilst the producers of Theatre Europe have taken every care in researching this program to ensure the accuracy of details, we must stress that the events depicted in this conflict simulation are entirely fictitious – They must never be allowed to happen, the danger is that they might!
