HIGHLIGHTS

► Tony La Russa helped create this exciting simulation.

► Biggest, most detailed ballpark ever created — over twice as big as any other game.

► Includes more frames of high-quality animation than any other C-64 baseball game ever published.

► Unique fielding system makes catching fly balls easy — even lets you react to sharp grounders.

► Bring your defense in for the play at the plate, or hang back and hope for the double play.

► Every aspect of real big-league players' hitting and pitching is considered.

► Includes a variety of special "trademark" pitches such as knucklers, screwballs and even splitfinger fastballs.

Unique fielding system makes tracking the ball easy!

► Includes 26 teams of the hottest superstars of yesteryear.

► The computer is a lively opponent — fielders back up plays and execute complex run-downs. Fast runners take the extra base to set up scoring opportunities.

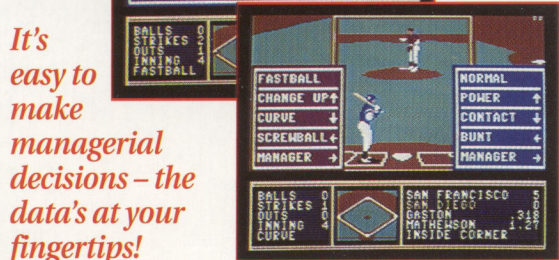

► Play against the computer, against a friend, or sit back and let the computer handle everything.

► Two levels of game play make TONY LA RUSSA'S **ULTIMATE BASEBALL** easy to learn.
