

You and your accomplice must hijack the enemy war train. Wait! The Germans have spotted him! Hold them off with a spray of machine gun fire.

You control an armed WW2 locomotive. Open the furnace, shovel coal, adjust the throttle. Blow the whistle to signal the Resistance fighters down the line.

Capture the station. Replenish your coal and water supplies. Intercept the enemy intelligence reports, then telegraph the Resistance forces with new orders.

To the Luftwaffe, an ordinary train is a sitting duck. But yours is anything but ordinary! Riddle the enemy fighter with rounds from your 50mm anti-aircraft gun.

These screen shots represent the Commodore C64/128 version. Other versions may differ.

ESCAPE TO NORMANDY

THE TRAIN: A daring and deadly escape behind enemy lines!

August, 1944. The German stranglehold on Europe is slipping. The liberation of occupied France looms on the horizon. In an effort to escape the advancing Allied forces, the Germans begin a desperate evacuation of men, machinery and the spoils of war.

On the outskirts of Metz, a heavily armed train of the Third Reich sits sweltering in the dead of night. On board lies a secret cargo. Renoirs, Monets, Picassos—the entire plundered art collection of France—are to be smuggled to Berlin under a cover of darkness. Once in Hitler's clutches, these priceless masterpieces could be lost to mankind forever.

Only you can stop it!

In *The Train*, you are a leader in the French Resistance. Your mission: capture the armored 'war train' and successfully commandeer it through enemy lines for a rendezvous with the Allies at Riviere, Normandy.

With the help of a brave corps of Resistance fighters, you'll actually engineer a WW2 locomotive and engage in some of the most realistic and hostile combat simulations ever created for the personal computer. Traps, ambushes and sabotage may await you at any station, any bridge or any crossing. Enemy Planes will strafe you in heated pursuit. Gunboats can blast you right off the rails.

The Train. Shovel coal or shovel your own grave.

ABOUT OUR COMPANY:

Accolade was founded by game designers. Their attention to eye-catching detail, emphasis on the highest quality graphics, and understanding of challenging play has set the standard for all of our products. These standards, coupled with the imagination and vision of other designers and developers around the world who have joined us, have produced the finest software available today. In Europe our products are published by Electronic Arts Ltd. If you'd like a product brochure, please send a stamped, SAE to: Electronic Arts, 11/49 Station Road, Langley, Berks SL3 8YN, England.

Limited Warranty

Electronic Arts warrants to the original purchaser of this computer software product that the recording media on which the software programs are recorded will be free from defects in materials and workmanship for 90 days from the date of purchase. During such period defective media will be replaced if the original product is returned to Electronic Arts at the address below, together with a proof of purchase, a statement describing the defects, and your return address.

This warranty does not apply to the software programs themselves, which are provided "as is", nor does it apply to media which has been subject to misuse, damage or excessive wear.

This warranty is in addition to, and does not affect your statutory rights in any way.

Media Replacement

Electronic Arts will replace user damaged media if the original media is returned with a Eurocheque payable to Electronic Arts Ltd. for £5.75 (inc. VAT) for disk or £3.45 (inc. VAT) for cassette.
