

Treasure Island

Long John Silver

A one-legged sailor, Silver signed aboard the *Hispaniola* as ship's galley cook. His cheerful spirit and smooth-talking manner make him popular with the crew.

Captain Smollett

Bold, outspoken, and virtuous, the Captain is an expert mariner. His courage and strength of character tower over the pirates, who loathe and fear him.

Squire Trelawney

The Squire is a large, muscular man, whose face has been roughened and reddened during his long travels. He is a man of action, whose skill with a gun has made adventuring very profitable for him.

Ben Gunn

Ben is a marooned sailor, clothed in the tatters of old sails and canvas, who looks like the "chief of raggedness." He has a wild look in his eye and moves silently about the island with the speed of a deer.

Doctor Livesey

The Doctor is a tall, thin man of intelligence and pleasant manners. He is the most compassionate of those aboard the *Hispaniola*, and looks after you as if you were his own son.

Israel Hands

An honest man, by his own description, Hands is the unlikely soul left to guard the *Hispaniola* while the rest of the crew explores Treasure Island.

Billy Bones

A dark, powerful man with a saber cut across one cheek, Bones once sailed with the infamous Captain Flint. He's a rum-loving old pirate and a plain man, by his own description.
