

COMMODORE 64/128-DISKETTE

C-64

WATER POLO

WATER POLO

A GREAT SIMULATION OF THE WORLD'S TOUGHEST TEAM SPORT

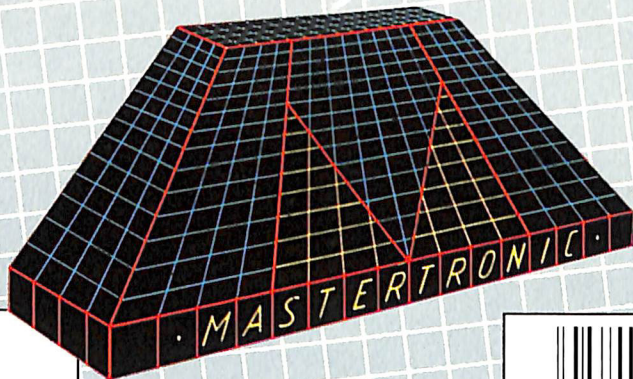

Described as a combination of soccer and basketball, played in a swimming pool, water polo is fast and furious, and there is no opportunity to rest, unless you can breathe underwater!

Water Polo was the first team sport ever to be played at the Olympic games in Paris, France, in 1900. Last time out in Los Angeles the U.S.A. won the Silver Medal – **could you have done better?**

Find out for yourself in this great version for your Commodore C64.

You will need speed and agility, as well as a grasp of the strategy and tactics of this exhilarating sport. The computer offers you nine levels of play to keep testing your ability.

One or Two Player and Tournament Option. Joystick Required.

**Full instruction
booklet inside.**
