Howdy Folks!

From me, you can learn why the Wild West really was wild! Forget the old stories of cowboys and attacks of Indians! In fact people were bored for 351 days a year. Well, this was why they invented some rough games to play with strangers who came into town.

- **ARMWRESTLING** – the hard way so that weaklings burn their arms on a candle.
- **BEERSHOOTING** – Of course the village idiots have to hold the bottles and glasses that serve as targets.
- **DANCING** – What a laugh when some awkward cowboy tries his best to wriggle!
- **QUID-SPITTING** – The pot has to be hit and not missed.

The loser's job is to wipe the floor.

- **MILKING** – It's real skill to milk a cow from the udder.
- **EATING COMPETITION** – Tuck in! Lots of beans and bacon – but keep in time!

Come and have a try! And bring a friend with you because these **WESTERN GAMES** are well suited for two players to compete against each other.

six games in 1, 1 or 2 players! fantastic graphics in comic-style!
joystick or keyboard! over 800 different movements!
