### MEET PROFESSOR FENTON Q.

**FOGBANK.** A devoted scientist. A brilliant archeologist. And a world famous explorer. Unfortunately, he's also absent-minded and accident-prone. Without his brave, steadfast and true-blue brother to assist him (that's *you*), he would surely do himself in. You see, whenever the Professor embarks on a perilous project, he can't take his eyes off the map. *Somebody* has to watch where he's going.

**IT'S NICE TO BE NEEDED** and nobody needs you like Professor Fogbank. You're the one who scoops up all the archeological artifacts. The one who ducks and dodges the deadly dangers. Most of all, you're the one who keeps the Professor on the right path—and will that ever keep you busy! Luckily, you have a special talent to help you handle the job: you can whistle!

**WHISTLE WHILE YOU WORK** and you'll keep old Professor Fogbank from a fearsome fate. Your whistle is like music to his ears. That is, when he's close enough to hear you.

**YOU TRAVEL TO THE TUNE** of rollicking ragtime piano. And you'll visit some very exotic locations: deep, dark jungles, ancient cliff villages and musty old tombs, where mummies might make mincemeat out of you.

**THERE'S NEVER A DULL MOMENT** when you work for Professor Fogbank. It may not be easy, but it's never boring. So lace up your hiking boots, sharpen up your reflexes, and pucker up your whistle muscles! The adventures are about to begin!
