SOLID GOLD INTERACTIVE FICTION

BY BRIAN MORIARTY

WITH ON-SCREEN HINTS

So you want to work for the Post Office, eh? Okay, sport. Take this letter over to the joke shop on the other side of town. And don't listen to the creepy old dame who runs the place. She'll go on and on about black cats, trolls, magic quests and somebody she calls the Evil One. Says she's got a rock that makes wishes come true. Probably talks to UFOs, too.

Be polite. If she offers you a gift, don't take it ... and whatever you do, don't let her send you on any errands!

P.S.: Better hurry.
It's getting Dark outside.

"There's no better introduction to the richness of adventure-gaming experience than this beautiful, imaginative game."—*inCider*

Wishbringer is the ideal starting point for first-time interactive fiction players. You're granted seven magic wishes which you can use to solve the puzzles, or you can solve them just by using your wits and logic. To help you out, the puzzles start out fairly easy, with the challenge increasing only as you become more skilled. When you combine these features with a richly-woven storyline, it's no wonder *Wishbringer* is a favorite of novice and seasoned players alike, and the winner of such prestigious awards as the *Family Computing Critics' Choice Award*.

Now this interactive fiction classic has joined Infocom's specially-priced Solid Gold line. Solid Gold classics are the "paperback" versions of our best-selling titles, offering the complete game disk and an instruction manual containing everything you need to know to play. Plus, all Solid Gold titles feature on-screen hints!

In *Wishbringer*, author Brian Moriarty puts you in the role of an ordinary mail clerk in an ordinary

little town. But there's something quite extraordinary in today's mail. It's a ransom note for a kidnapped cat, and it will lead you through amazing adventures to *Wishbringer*, a stone possessing undreamt-of powers. For although the note is addressed to someone in your ordinary little town, it's postmarked for Special Delivery to Parts Unknown. And its true destination is somewhere beyond your wildest dreams...

ENTER THE WORLD OF THE MASTER STORYTELLERS.

Interactive fiction software from Infocom is unlike anything you've ever experienced. It's a whole new dimension in storytelling.

Think of your favorite story. Now think of the main character in that story. And imagine that YOU have become that character. You are standing in his shoes, in his world. You have people to meet, places to visit, and challenges to face. It's all just as vivid as anything you've ever experienced in real life. The decisions are yours... and so are the consequences.

In interactive fiction, you communicate with the story through conversational English sentences typed into your computer. The plot

unfolds as you decide what to do next, drawing you into a world so involving that it taps your adrenaline as much as your intellect. With hundreds of alternatives at each step, your adventure can last for weeks and even months.

Journey to a place limited only by your imagination—the world of Infocom's interactive fiction.
