FAMOUS COURSES OF THE WORLD VOL. III

By Bruce & Roger Carver

Here's another exciting addition to the World Class Leader Board series. Volume III features courses from Europe, Canada and the United States.

- **SAWGRASS**—Here on 415 heavily wooded acres in Ponte Vedra, Florida, Pete Dye crafted the ultimate examination in target golf. The nervous fingers of fairway lined with long strips of sand and water make this course one of the most challenging anywhere.
- **ROYAL ST. GEORGE'S**—No course is closer to the heart of golf in England than Royal St. George's Sandwich. The distinctive character of the course and its ancient surroundings lend the atmosphere of greatness associated with this championship course.
- **BANFF SPRINGS**—This course located in the Canadian Rockies offers one of the most spectacular settings in this world or any other. Measured against the exacting standards of today's top players it is a true championship test.
- **FIRESTONE**—This Ohio course has the unanimous admiration of the tour players who see it as a supremely honest, straightforward examination of their skills. Jack Nicklaus described the course as "a great test of golf, every shot is demanding".
