

SH sound "Useless Information"

Upon investigation, I found there are thousands of words with the "sh" sound. Don't believe me, look it up in the dictionary. Learning new words and their definitions will help you with the pronunciation. It is also crucial for comprehension. Not knowing what a word means can lead to frustration. You don't need deep concentration or meditation. Just repeat someone who has a solid foundation in English. That will help you with your education.

If you think I'm mistaken, I am open to discussion. Suggestions are always encouraged. Please tell me what corrections need to be made. I will take action. Surely, someone has a question.
