"Liquid Under a Squids Eyelids"

A kid from Madrid asked me to solve a riddle. "What does it mean when a sad squid has liquid under its eye?"

I am not an idiot, but I was timid and did not want to give a stupid answer. I said, "A sad squid has liquid under its eye because it is crying."

The kid from Madrid said, "Squids can't cry! When a squid swims, they always have water under its eyelids."

Be creative and tell me why squids don't cry?
