

**GAME:** *Flip a coin, heads or tails.*

**BEST TIME TO PLAY:** *Word Families 018 flip, 062 toss, 073 tail, 087 side and Sight Word 072 last.*

**OBJECT OF GAME:** *Remain the last student standing by guessing the correct coin toss.*

\* Before the teacher flips a coin, the students must choose to stand on the left side (heads) or the right side (tails) of the class. The coin is flipped. Students who are correct remain in the game.

\* To keep eliminated students engaged and burning energy, they must wall sit.

\* When only two or three students remain, the teacher picks out a Popsicle stick for one eliminated student to return playing. I use this technique all the time, Simon Says, etc.

\* The winner gets a point or whatever prize you feel is appropriate.

# Heads

# Tails
