"How to Prevent Cavities"

Kent is a student who is always absent. He makes frequent visits to the dentist. Today, he is not present.

His parents sent me a note, "Kent has an appointment with his dentist." If Kent does not brush his teeth more often, I am 100% confident at least twenty teeth will fall out. He should prevent cavities by brushing his teeth after every meal.

#12 ent Advanced "How to Prevent Cavities"

1) Why did Kent miss school?

2) In paragraph one, what do they mean by "present"?

3) What will happen if Kent does not brush his teeth?

4) Do you brush your teeth after every meal? _____

5) Please underline all the nouns once, the verbs twice and circle every adjective.
